

Under Rail Fixture Installation Instructions

P/N: SRD-UR7LED, SRD-UR13LED, SRD-UR19LED

READ ALL INSTRUCTIONS CAREFULLY BEFORE BEGINNING INSTALLATION KEEP THESE INSTRUCTIONS

This fixture is intended for installation in accordance with the National Electric Code (NEC) and Local code specifications. Failure to adhere to these codes and instructions may result in serious injury and/or property damage and will void the warranty.

- 1) DO NOT INSTALL in walls where the capstones overhang the wall less than 3/4" [19 mm]

INSTALLATION IN BRICK or MASONRY WALL

(SEE FIG. A)

- 1) Turn off power.
- 2) Determine the desired location for each fixture before construction of wall is started.
- 3) Insert stainless steel mounting plate in between layers of hardscape material. The use of adhesive or mortar (not provided) to secure the fixture in place is optional.
- 4) Route the fixture wire through the wall to the main low voltage supply cable using standard masonry procedures. A "V" shaped notch can be cut into the hardscape material to aide in wire management if desired.
- 5) Attach fixture to bracket using screws provided.
- 6) Connect fixture wires to main low voltage supply cable using the connector(s) provided.

FIG. A
